Summary

Full-Stack Developer skilled in Python (Django), JavaScript (React, Next.js, Node.js), and automation systems (n8n). Experienced in building multi-service workflows, scalable UIs, and performing RCA across production environments. Passionate about end-to-end engineering, automation, and delivering reliable systems.

Skills

Languages	Python, JavaScript, TypeScript, Java, C++
Frameworks	Django, Next.js, React, Node.js, Express.js, Fast API (Basic)
Automation & Platforms	n8n, Sanity CMS, HubSpot CMS, Metabase, Sentry
Databases	SQL, MongoDB, PostgreSQL
Tools & Core	Git, GitHub, Linux, AWS(EC2/S3), Event-Driven Architecture, API Integrations

Experience

Software Engineer Intern, Winvesta (Fintech)

May 2025 – December 2025

Remote

- Built a 3-part automation system (n8n → Django → React) for withdrawal compliance, making processing 85% faster.
- Implemented core Django backend logic powering workflow steps, state transitions, and secure data processing.
- Refactored and shipped React UI panels for operations, improving usability and responsiveness for the team.
- Migrated the website from HubSpot CMS to Sanity + Next.js: worked on HubSpot landing pages, built a Node.js migration agent for export/transform/import, and rebuilt pages in Next.js, cutting CMS costs by 80%.
- Built automation agents that made blog/news generation, data analysis from Microsoft clarity 50% faster.
- Resolved user-reported production issues through RCA, manual remediation, permanent fixes, and multi-environment testing (local → Dev → UAT → Prod).

Frontend Developer (Freelance), BizMate

June 2025 – Present

Remote

- Built the front-end for an Inventory Management System using React TypeScript.
- Developed a new landing page UI, improving clarity and user flow.
- Integrated front-end components with a Java-based backend for smooth API data flow.

Projects

Surge Sales AI Assistant

[\(LINK\)](#)

- AI assistant analyzing sales calls and generating automated feedback and flashcards, reducing response time by 40%. Real-time FAQ agent for instant query handling.

University Portal – A3S Auth Integration

[\(LINK\)](#)

- Integrated A3S with OIDC/ABAC into a university portal using claim-based tokens across hierarchical namespaces.
- Built Dockerized React/Express/A3S app with token cloaking and role-based Admin/Student access control. .

Achievements Certifications

- **Trainer – Git & GitHub:** Conducted workshop for MBA students. 2× Hackathon Finalist.
- **LeetCode:** 100+ problems. Certified in Java Basic, SQL Basic, and Problem Solving.

Education

B.Tech Computer Science, ITM Skills University

2023 - 2027

Higher Secondary Education, Don Bosco Sr. Sec. School, Nerul

2012 - 2023
